

	EXTRACTION & E	JECTION ISSUES
PROBLEM	PROBABLE CAUSES	CORRECTION
Failure to feed	Magazine not properly inserted	Remove and reinsert magazine
	Underpowered ammunition	Change ammunition
	Dirty magazine	Clean and inspect magazine
	Weak magazine spring	Replace magazine spring or magazine
	Dirty chamber	Clean the chamber
	Tight extractor	Replace or clean as needed
	Shooting with an unlocked wrist (limp wristing)	Lock shooting hand wrist
	Deformed magazine (magazine sides or lip deformed	Replace magazine
	Weak recoil spring	Replace recoil spring
	Extractor worn, broken or missing	Replace the extractor
	Defective ammunition	Change ammunition
Failure to extract	Dirt under the extraction claw	Clean the extractor
	Dirty chamber	Clean the chamber
	Shooting with an unlocked wrist (limp wristing)	Lock shooting hand wrist
	Broken or damaged ejector	Replace trigger mechanism housing with ejector
	Underpowered ammunition	Change ammunition
Ejection Problems	Dirty chamber	Clean the chamber
(including stove pipes)	Shooting with an unlocked wrist	Lock shooting hand wrist
	Lack of lubrication	Lubricate (Barrel, Slide, & Frame)
	Dirty gun	Clean & Lubricate
	FIRING	
PROBLEM	PROBABLE CAUSES	CORRECTION
PROBLEM		CORRECTION
PROBLEM	PROBABLE CAUSES  Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round	CORRECTION  Inspect and replace round
PROBLEM	Slide out of battery (DO NOT FORCE INTO	
PROBLEM  Failure to fire	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round	Inspect and replace round
	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round Under powered ammunition	Inspect and replace round  Change ammunition
	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round Under powered ammunition Damaged/weak recoil spring	Inspect and replace round  Change ammunition  Replace recoil spring assembly
	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round  Under powered ammunition  Damaged/weak recoil spring  Damaged recoil spring tube  Mating surfaces of barrel, slide and the receiver	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly
	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round Under powered ammunition Damaged/weak recoil spring Damaged recoil spring tube Mating surfaces of barrel, slide and the receiver excessively dirty	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly  Field strip, clean & lubricate
	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round  Under powered ammunition  Damaged/weak recoil spring  Damaged recoil spring tube  Mating surfaces of barrel, slide and the receiver  excessively dirty  Gun dirty/obstructed chamber	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly  Field strip, clean & lubricate  Clean chamber
Failure to fire	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round  Under powered ammunition  Damaged/weak recoil spring  Damaged recoil spring tube  Mating surfaces of barrel, slide and the receiver excessively dirty  Gun dirty/obstructed chamber  Worn or broken striker tip  Obstructed striker channel	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly  Field strip, clean & lubricate  Clean chamber  Replace striker  Clear and clean the striker channel
Failure to fire  No primer strike	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round  Under powered ammunition Damaged/weak recoil spring Damaged recoil spring tube  Mating surfaces of barrel, slide and the receiver excessively dirty  Gun dirty/obstructed chamber  Worn or broken striker tip	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly  Field strip, clean & lubricate  Clean chamber  Replace striker  Clear and clean the striker channel  Diassemble & reassemble properly
Failure to fire	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round  Under powered ammunition  Damaged/weak recoil spring  Damaged recoil spring tube  Mating surfaces of barrel, slide and the receiver excessively dirty  Gun dirty/obstructed chamber  Worn or broken striker tip  Obstructed striker channel  Spring cups inverted	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly  Field strip, clean & lubricate  Clean chamber  Replace striker  Clear and clean the striker channel  Diassemble & reassemble properly  Change ammunition
Failure to fire  No primer strike  Light, centered primer	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round  Under powered ammunition  Damaged/weak recoil spring  Damaged recoil spring tube  Mating surfaces of barrel, slide and the receiver excessively dirty  Gun dirty/obstructed chamber  Worn or broken striker tip  Obstructed striker channel  Spring cups inverted  Hard primer	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly  Field strip, clean & lubricate  Clean chamber  Replace striker  Clear and clean the striker channel  Diassemble & reassemble properly  Change ammunition
Failure to fire  No primer strike  Light, centered primer	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round  Under powered ammunition  Damaged/weak recoil spring  Damaged recoil spring tube  Mating surfaces of barrel, slide and the receiver excessively dirty  Gun dirty/obstructed chamber  Worn or broken striker tip  Obstructed striker channel  Spring cups inverted  Hard primer  Obstructed striker channel	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly  Field strip, clean & lubricate  Clean chamber  Replace striker  Clear and clean the striker channel  Diassemble & reassemble properly  Change ammunition  Remove, inspect and clean striker and striker spring. Clean striker channel
Failure to fire  No primer strike  Light, centered primer strike	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round  Under powered ammunition  Damaged/weak recoil spring  Damaged recoil spring tube  Mating surfaces of barrel, slide and the receiver excessively dirty  Gun dirty/obstructed chamber  Worn or broken striker tip  Obstructed striker channel  Spring cups inverted  Hard primer  Obstructed striker channel  Tight extractor	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly  Field strip, clean & lubricate  Clean chamber  Replace striker  Clear and clean the striker channel  Diassemble & reassemble properly  Change ammunition  Remove, inspect and clean striker and striker spring. Clean striker channel  Replace
Failure to fire  No primer strike  Light, centered primer strike  Light off-centered	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round  Under powered ammunition  Damaged/weak recoil spring  Damaged recoil spring tube  Mating surfaces of barrel, slide and the receiver excessively dirty  Gun dirty/obstructed chamber  Worn or broken striker tip  Obstructed striker channel  Spring cups inverted  Hard primer  Obstructed striker channel  Tight extractor  Dirty gun	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly  Field strip, clean & lubricate  Clean chamber  Replace striker  Clear and clean the striker channel  Diassemble & reassemble properly  Change ammunition  Remove, inspect and clean striker and striker spring. Clean striker channel  Replace  Clean & Lubricate
Failure to fire  No primer strike  Light, centered primer strike  Light off-centered	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round  Under powered ammunition  Damaged/weak recoil spring  Damaged recoil spring tube  Mating surfaces of barrel, slide and the receiver excessively dirty  Gun dirty/obstructed chamber  Worn or broken striker tip  Obstructed striker channel  Spring cups inverted  Hard primer  Obstructed striker channel  Tight extractor  Dirty gun  Slide lock reversed or not beveled	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly  Field strip, clean & lubricate  Clean chamber  Replace striker  Clear and clean the striker channel  Diassemble & reassemble properly  Change ammunition  Remove, inspect and clean striker and striker spring. Clean striker channel  Replace  Clean & Lubricate  Replace or reinstall the slide lock
Failure to fire  No primer strike  Light, centered primer strike  Light off-centered primer strike	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round  Under powered ammunition  Damaged/weak recoil spring  Damaged recoil spring tube  Mating surfaces of barrel, slide and the receiver excessively dirty  Gun dirty/obstructed chamber  Worn or broken striker tip  Obstructed striker channel  Spring cups inverted  Hard primer  Obstructed striker channel  Tight extractor  Dirty gun  Slide lock reversed or not beveled  Weak recoil spring  Connector loose in housing	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly  Field strip, clean & lubricate  Clean chamber  Replace striker  Clear and clean the striker channel  Diassemble & reassemble properly  Change ammunition  Remove, inspect and clean striker and striker spring. Clean striker channel  Replace  Clean & Lubricate  Replace or reinstall the slide lock  Replace the recoil spring  Replace housing
Failure to fire  No primer strike  Light, centered primer strike  Light off-centered primer strike	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round  Under powered ammunition  Damaged/weak recoil spring  Damaged recoil spring tube  Mating surfaces of barrel, slide and the receiver excessively dirty  Gun dirty/obstructed chamber  Worn or broken striker tip  Obstructed striker channel  Spring cups inverted  Hard primer  Obstructed striker channel  Tight extractor  Dirty gun  Slide lock reversed or not beveled  Weak recoil spring  Connector loose in housing  Pistol is excessively dirty	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly  Field strip, clean & lubricate  Clean chamber  Replace striker  Clear and clean the striker channel  Diassemble & reassemble properly  Change ammunition  Remove, inspect and clean striker and striker spring. Clean striker channel  Replace  Clean & Lubricate  Replace or reinstall the slide lock  Replace the recoil spring  Replace housing  Field strip, clean & lubricate
Failure to fire  No primer strike  Light, centered primer strike  Light off-centered	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round  Under powered ammunition  Damaged/weak recoil spring  Damaged recoil spring tube  Mating surfaces of barrel, slide and the receiver excessively dirty  Gun dirty/obstructed chamber  Worn or broken striker tip  Obstructed striker channel  Spring cups inverted  Hard primer  Obstructed striker channel  Tight extractor  Dirty gun  Slide lock reversed or not beveled  Weak recoil spring  Connector loose in housing	Inspect and replace round  Change ammunition  Replace recoil spring assembly  Replace recoil spring assembly  Field strip, clean & lubricate  Clean chamber  Replace striker  Clear and clean the striker channel  Diassemble & reassemble properly  Change ammunition  Remove, inspect and clean striker and striker spring. Clean striker channel  Replace  Clean & Lubricate  Replace or reinstall the slide lock  Replace the recoil spring  Replace housing

Trigger safety fails to return or engage in the forward position	Improperly stored in original box with trigger in full forward position (trigger safety fully depressed)	Replace trigger bar. When stored in original box, pistol must be unloaded, trigger in back position.		
Firing pin safety fails as described in the manual	Damaged, worn or defective striker pin safety	Remove and replace		
SLIDE ISSUES				
PROBLEM	PROBABLE CAUSES	CORRECTION		
	Magazine follower broken	Replace magazine or magazine follower		
	Dirty magazine	Clean and inspect magazine		
	Weak magazine spring	Replace magazine spring or magazine		
	Dirty gun	Clean & Lubricate		
Slide fails to lock open on last round	Needs lubrication	Lubricate		
	Deformed magazine	Replace magazine		
	Trigger pin inserted too far (left or right) Slide stop lever worn	This can cause the spring on the slide stop lever to bind. Check to see if the slide stop lever moves freely. If no, press the trigger pin slightly to the right until the slide stop lever moves freely.		
	Slide stop lever damaged	Inspect and replace if necessary		
	Underpowered ammunition	Change ammunition		
	Shooting with and unlocked wrist (limp wristing)	Lock shooting hand wrist		
	Improper grip	Tighten grip		
	Slide out of battery (DO NOT FORCE INTO BATTERY) due to: deformed or defective round	Inspect and replace round		
Failure to fire	Under powered ammunition	Change ammunition		
	Damaged/weak recoil spring	Replace recoil spring assembly		
	Damaged recoil spring tube	Replace recoil spring assembly		
	Mating surfaces of barrel, slide and the receiver excessively dirty	Field strip, clean & lubricate		
	Gun dirty/obstructed chamber	Clean chamber		
	Improper hand position	Change grip		
Slide Lock Opens	Reverse tension on slide stop lever	Install lever correctly and perform field inspection for proper tension.		
Prematurely	Damaged slide stop lever	Replace
